Re: New Jersey One-Call Damage Prevention System contract extension,  
Contract number A40171  
BPU Docket number AA15090993

Dear Secretary Camacho:

Enclosed for filing with the Board of Public Utilities ("Board") are an original and twelve copies of this letter, which is a response to a Board Staff inquiry regarding extending One Call Concepts, Inc.'s ("OCC's") contract for operation of the New Jersey One Call Center.

The New Jersey Department of the Treasury awarded contract number A40171 for the operation of the New Jersey One Call Center to "OCC" on November 20th, 2015. Consistent with Treasury's Request for Proposal 16-X-23298 for the One Call Damage Prevention System, OCC provided pricing for five years.

In response to staff inquiries, OCC herein affirms that it would be pleased to extend its agreement to operate the center for two additional years as provided under the RFP and contract at the current rate of \$ 7.41 per incoming ticket.

Thank you for your consideration. Please feel free to contact us directly in the event further information is required.

Yours truly,

James L. Holzer  
Project Manager  
One Call Concepts, Inc.
