Hi

I'm writing to let you know that you need to approve the expansion of cable/internet lines into Knowlton Township. For **YEARS** we have been paying Centurylink for service and internet speeds that we have not been receiving. We have complained numerous times with no help. We are **only** 75 fee from being bonded. The Internet is CONSTANTLY going out which is causing major issues when people are trying to work from home. Because of the inept service its forcing people who could easily work from home IF they had adequate internet service to go out and risk exposing themselves to the COVID -19 virus. You need to make the expansion into Knowlton Township – NO EXCUSES!!!

Kim Fucetola
