

PSEG Nuclear, LLC  
ZEC 2 – Salem II  
Docket No: ER20080558

Response to Discovery Request: SII-ZECJ-FIN-0010  
Date: 10/1/2020

Question:

Provide a list of all active and anticipated contracts for capacity and/or energy supply by the Unit outside of the BGS and PJM markets. Include capacity and/or energy contracted, type of market, length of obligation, and customer. Be prepared to provide documentation upon request.

Attachments Provided Herewith: NO

Response:

PSEG does not have any active contracts or anticipate any contracts for capacity and/or energy supply by Hope Creek, Salem 1, or Salem 2 outside of the PJM markets based on the current market constructs. We would consider alternatives if market constructs change such that alternative contracts are beneficial to the financial viability of the Units. Also note that the nuclear Units supply all energy into the PJM day ahead and real time markets and do not have contracts for capacity or energy in BGS.
