Re: IMO Township of Alloway's Bonafide Retail Request Application to  
Verizon NJ and Compliance with the Requirements Thereof  
Docket No. TC19121515

Dear Ms. Asbury:

I am circulating information pertaining to Alloway Township of Salem County which my office has sought to assist with regard to Verizon service. This by way of follow up correspondence insofar as it was a part of the file delayed in transition from previous County Counsel to myself.

Thank you for your attention.

Very truly yours,

John G. Carr

JGC/mep

Stephanie LaScala  
140 Pierson Road Alloway  
856-769-0093

8/14/2020

To whom it may concern:

Enclosed are applications from ALL the houses on the Road I live on in Alloway Township (Woodstown mailing Zip) with the exception of two. Collectively we want adequate internet access like that afforded to other residents of the Township. Some of us have school aged children and during the COVID closure of the school were unable to access the internet which cost our children dearly in their Education.

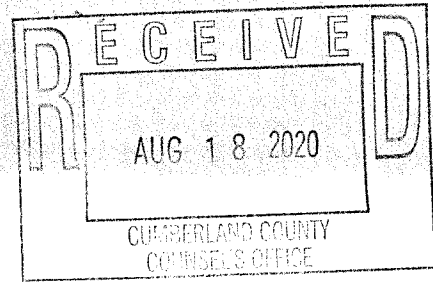

The upcoming School Year is set to start soon with a new Hybrid schedule requiring our children to "live stream" classroom teaching 3 out of 5 days per week. I was told in a school meeting that a child who is not signed in each day to the virtual classroom will be mark as absent from school.

I myself have tried several gadgets over time and could not even work from home during this pandemic due to an insufficient signal with our satellite internet. My household has two cell phones yet I cannot send out text messages, or receive phone calls at home so we have a landline too. I have also downloaded the "speed test" from the FCC website and the test will not even run unless I have on the WIFI from our Satellite internet. When the test runs from the Satellite internet the results show the speed as "below FCC standards".

Sincerely,

  
Stephanie LaScala
