#### STIPULATION OF SETTLEMENT

## **APPEARANCES**:

James C. Meyer, Esq., Riker Danzig Scherer Hyland & Perretti, LLP, and John L. Carley, Esq., Associate General Counsel, for the Petitioner, Rockland Electric Company

T. David Wand, Esq., Managing Attorney, Brian Weeks, Esq., Deputy Rate Counsel, Christine M. Juarez, Esq., Robert Glover, Esq., and Bethany Rocque-Romaine, Esq., Assistant Deputies Rate Counsel, for the Division of Rate Counsel (Brian O. Lipman, Esq., Director)

Terel Klein, Meliha Arnautovic, and Pamela Owen, Deputy Attorneys General, for the Staff of the New Jersey Board of Public Utilities (Andrew J. Bruck, Acting Attorney General of New Jersey)

THIS STIPULATION OF SETTLEMENT ("Stipulation" or "Settlement") is made as of December 3, 2021 by and among Rockland Electric Company ("RECO" or "Company"), the New Jersey Division of Rate Counsel ("Rate Counsel") and Staff of the New Jersey Board of Public Utilities ("Staff") (referred to herein individually as a "Party" and collectively as the "Parties") to fully resolve the above-captioned matters.

On March 29, 2021, RECO filed a Verified Petition with the New Jersey Board of Public Utilities ("Board") in the proceeding captioned above in BPU Docket No. EO021030675 ("Securitization Petition"). The Securitization Petition requested that the Board approve the proposed regulatory treatment of the winding-up of the Transition Bond Transaction authorized in the Board's May 26, 2004, Bondable Stranded Costs Rate Order, including the refunding to customers of a small net over-collected amount from the Transition Bond Charge ("TBC") and TBC-Tax rates. The Securitization Petition noted that RECO Transition Funding LLC ("RECO Transition LLC") paid off their transition bonds, 15-year term in May 2019 and the Company set the non-bypassable TBC and TBC-tax rates to \$0 effective June 1, 2019.

On May 21, 2021 RECO filed a Verified Petition ("Rate Petition") in the base rate proceeding captioned above in BPU Docket No. ER21050823 ("Base Rate Case"). The Rate Petition requested that the Board approve the following: 1) an increase in RECO's base electric distribution rates and charges as reflected in the proposed amendments to the Company's tariff; 2) changes to certain electric and general plant depreciation rates; 3) recovery of deferred storm

<sup>&</sup>lt;sup>1</sup> In re the Verified Petition of Rockland Electric Company for a Bondable Stranded Costs Rate Order to Authorize the Imposition of a Non-Bypassable Transition Bond Charge, the Issuance and Sale of Up to \$46.3 Million Aggregate Principal Amount of Transition Bonds, or Such Higher Amount as May Be Required by a Financing Entity to Recover Petitioner's Basic Generation Service Transition Costs, and the Application of Transition Bond Proceeds to Retire Outstanding Debt, Equity or Both, and to Approve the Methodology for the Calculation and Adjustment of the Transition Bond Charge and Tax Charge Related Thereto, Docket No. EF02110852, Order dated May 26, 2004 ("Bondable Stranded Costs Rate Order").

costs including for Tropical Storm Isaias; 4) adjustments to net salvage allowance and net salvage true-up amortization for more recent actual experience; 5) consolidation of the Securitization Petition with the Base Rate Case, winding up of the Transition Bond Transaction, and amortization of the over-recovered amounts to customers; and 6) rate design, tariff determinations, and other relief. The Company's filing contained the Rate Petition, Exhibits to the Rate Petition, various schedules, and pre-filed direct testimonies. The Rate Petition provided that the increased distribution rates and charges in the Company's proposed tariff were designed to produce additional revenues of approximately \$16.9 million, excluding sales and use tax ("SUT"), or a 7.7% increase based upon total revenues calculated using the Company's current rates and projected sales for the 12-month test year period ended September 30, 2021, subject to increase or decrease upon the Company's filing of updated information.

On June 9, 2021, the Board issued an Order suspending increases, changes or alterations in rates for service that suspended proposed revised rates until October 21, 2021.<sup>2</sup> On October 6, 2021, the Board issued a further Order suspending increases, changes or alterations in rates for service that suspended proposed revised rates until February 21, 2022.<sup>3</sup>

The Rate Petition was transmitted to the Office of Administrative Law ("OAL") for evidentiary hearings and assigned to the Honorable Thomas R. Betancourt, Administrative Law Judge ("ALJ"). The Securitization Petition was also transmitted to the OAL and assigned to ALJ

<sup>&</sup>lt;sup>2</sup>In re the Verified Petition of Rockland Electric Company for Approval of Changes in Electric Rates, its Tariff for Electric Service, and its Depreciation Rates and for Other Relief, Order Suspending Increases, Changes or Alterations in Rates for Service, BPU Docket No. ER21050823, Order dated June 9, 2021.

<sup>&</sup>lt;sup>3</sup> In re the Verified Petition of Rockland Electric Company for Approval of Changes in Electric Rates, its Tariff for Electric Service, and its Depreciation Rates; and for Other Relief, Order Suspending Increases, Changes or Alterations in Rates for Service, BPU Docket No. ER21050823 and OAL Docket No. PUC 05219-21, Order dated October 6, 2021.

Betancourt. The transmittal form for the Securitization Petition anticipated that the securitization matter would be consolidated with the Base Rate Case. ALJ Betancourt, on his own motion, ordered the consolidation of the securitization matter (BPU Docket No. EO21030675; OAL Docket No. PUC 05218-21) and the Base Rate Case (BPU Docket No. ER21050823; OAL Docket No. PUC 05219-21), as reflected in the Amended Consolidation Order dated July 12, 2021.

ALJ Betancourt held a telephonic Prehearing Conference on July 7, 2021. ALJ Betancourt issued an Amended Prehearing Order dated July 12, 2021 establishing a procedural schedule, including evidentiary hearings on January 5, 6, 11, 14 and 18, 2022. No motions to intervene or participate were filed.

After proper notice to Municipal Clerks, the Clerks of the Board of Chosen Freeholders, and County Executive Directors and public advertisement in a newspaper with circulation in the Company's service territory, public hearings on RECO's Rate Petition and Securitization Petition were conducted via Zoom, with a dial-in option, on September 24, 2021, at 3:30 p.m. and 4:30 p.m.<sup>4</sup> No customers or public officials attended the public hearings or placed their comments on the record.

On July 28, 2021, the Company provided an update consisting of nine (9) months of actual data and three (3) months of estimated data ("9+3 Update") to the ALJ and the Parties.

The 9+3 Update reflected an updated additional revenue requirement of approximately \$16.132 million, excluding SUT, or an increase of 7.3% on a total revenue basis.

-

<sup>&</sup>lt;sup>4</sup> The public hearings were conducted virtually due to the ongoing COVID-19 pandemic.

Rate Counsel, Staff, and the Company engaged in extensive discovery. In total, the Company responded to approximately 728 formal discovery requests (not including additional subparts or responses to informal information requests) from Rate Counsel and Staff.

On September 24, 2021, the Company filed a separate Verified Petition which sought approval of Deferred Accounting Treatment for Storm Preparation Costs related to Tropical Storm Henri in BPU Docket No. ER21091143 ("Henri Petition").<sup>5</sup> The Henri Petition requested that the Board authorize RECO to: (1) defer on its books for accounting purposes the actual prudently incurred, unreimbursed incremental preparation costs associated with Tropical Storm Henri, because those costs did not qualify for automatic deferral under the Company's existing storm cost deferral mechanism, and (2) address recovery in rates of the total deferred incremental operation and maintenance ("O&M") storm related costs, the time period for recovery, and the carrying charge and manner of recovery, in a Phase two of the Company's Base Rate Case in BPU Docket No. ER21050823. The Henri Petition itemized approximately \$3.7 million in Henri preparation costs (i.e., pre-staging and mobilization costs).

On October 27, 2021, the Company provided an update consisting of 12 months of actual data ("12+0 Update"), reflecting actuals for the full test year, to ALJ Betancourt and the Parties. The 12+0 Update reflected an additional revenue requirement of approximately \$19.505 million, excluding SUT, or an increase of 9.2%, on a total revenue basis. The 12+0 Update, in Exhibit P-2, Schedule 14(c), reflected updated Henri preparation costs through September 30, 2021 of approximately \$2.81 million.

<sup>&</sup>lt;sup>5</sup> <u>In re the Verified Petition of Rockland Electric Company for Approval of Deferred Accounting Treatment For Storm Preparation Costs Related To Tropical Storm Henri; and For Other Relief, BPU Docket No. ER21091143.</u>

The Parties commenced settlement discussions in accordance with the Amended Prehearing Order (p. 4), that specified "Discovery Conference/Settlement Conference, if necessary" for the weeks of September 13 and 20, 2021. Specifically, the Parties held a discovery conference on September 15, 2021. The Parties held the first settlement conference on September 21, 2021 with multiple further settlement conferences in the following weeks. In addition, break out settlement calls among subject matter experts from the respective Parties were held on several topics. (All settlement discussions proceeded via video conferences and/or telephone conferences, as a result of the COVID-19 pandemic). The settlement discussions encompassed the Rate Petition, the Securitization Petition and the Henri Petition.

During the settlement discussions, the Parties requested and ALJ Betancourt granted two (2) one (1)-week extensions of the date for Rate Counsel to file its testimony. On October 14, 2021, ALJ Betancourt granted the Parties' request to suspend the procedural schedule because agreement in principle was reached on the revenue requirements issue, and to allow the Parties to work on a Stipulation of Settlement.

The Parties have reviewed the Securitization Petition, the Henri Petition, the Rate Petition, the 9+3 Update, the 12+0 Update, discovery, detailed pre-filed testimony, and information exchanged during the period of settlement discussions. As a result, the Parties have agreed to resolve reasonably, fully and finally all factual and legal issues in the above-captioned matters by this Stipulation. In consideration of the recitals and mutual promises and covenants set forth herein, the Parties DO HEREBY STIPULATE AND AGREE:

1. <u>Effective Date</u>. The Parties agree that should the Board issue a written Order approving this Stipulation, revenue recovery and rates set forth herein shall become effective for service rendered on and after January 1, 2022 ("Effective Date").

- 2. <u>Test Year</u>. The Parties agree that the proper test year for establishing rates is the 12-month period ended September 30, 2021.
- 3. <u>Distribution Revenue Requirement and Rate Adjustment</u>. In the interest of achieving a satisfactory resolution of the issues to be decided in this proceeding, the Parties agree to an addition to annual distribution revenues of \$9.65 million, excluding SUT, which equates to an increase in overall revenues of 4.6%. The Parties agree that RECO's base rates will be just and reasonable after they are adjusted to generate an additional \$9.65 million in annual distribution revenues for service rendered on and after the Effective Date.
- 4. <u>Rate Base</u>. The stipulated electric distribution rate base used in deriving the revenue requirement and rates reflected in this Stipulation is approximately \$262.8 million.
- 5. Rate of Return. The overall rate of return, before income tax gross up, for purposes of this Settlement, is 7.08%, as set forth in Schedule A attached hereto. This is based upon a return on common equity of 9.60% and an embedded cost rate of long-term debt of 4.74%. The Parties agree that the capital structure for purposes of this Settlement is 51.49% long-term debt and 48.51% common equity.
- 6. <u>Determination of Revenue Requirement</u>. The determination of the stipulated revenue requirement is reflected on attached Schedule A.
- 7. <u>Consolidated Tax Adjustment</u>. The Parties acknowledge that the stipulated revenue increase reflects an adjustment for consolidated income taxes.
- 8. Rates. The Parties agree that Schedule B summarizes the revised electric distribution rates that shall be implemented on the Effective Date and that shall be included in revised Tariff leaves. The revised rates set forth in Schedule B implement the terms of this Stipulation regarding revenue requirements and rates. The Parties agree that the rates set forth in

this Stipulation and attached schedules are just and reasonable.

9. Rate Design/Tariff. The revised rates are set forth in Schedule B. Monthly customer charges excluding SUT were increased as follows: (i) for SC No. 1, the customer charge increased from \$5.07 to \$5.39; (ii) for SC No. 2 – Secondary Demand Billed, the customer charge increased from \$19.70 to \$22.51; (iii) for SC No. 2 – Primary, the customer charge increased from \$86.28 to \$93.79; (iv) for SC No. 6 – Energy Only unmetered service, the customer charge increased from \$2.81 to \$3.75; (v) for SC No. 6 – Energy Only metered service, the customer charge increased from \$13.13 to \$15.01; and (vi) for SC No. 7 – Primary, the customer charge increased from \$234.47 to \$281.36, as referenced in Schedule B. Next, before applying any revenue increase, a revenue neutral change was implemented for the SC No. 2 Secondary Demand Billed class, whereby 25% of the current usage rate differentials and a corresponding portion of demand rate differentials were eliminated and 2% of usage revenues were shifted to demand revenues. Thereafter, distribution rates were developed within each SC by applying uniform percentage increases, specific to each SC: 1) to all distribution rates (excluding customer charges) in non-demand billed classes; and 2) to demand distribution rates (excluding customer charges) only in demand-billed classes. The Parties agree that Schedule C, attached hereto, demonstrates that the rates to be implemented by RECO are designed to produce an additional \$9.65 million in annual revenues. The Parties also agree to making the following changes to the Company's Tariff, which are set forth in schedule F hereto: (i) SC No. 5 and all references to SC No. 5 will be removed from the Tariff; (ii) the wattage ranges assigned to the Company's LED street lights under SC Nos. 4 and 6 have been extended; (iii) uncollectible expense is transferred from base rates to the Societal Benefits Charge ("SBC") for recovery as described in paragraph 10; and (iv) the TBC and TBC-Tax charges (currently set at \$0) are

eliminated from the Tariff consistent with paragraph 20. The Parties agree that all of the foregoing changes described in this Paragraph will be reflected in the compliance Tariff to be filed pursuant to Paragraph 23 below.

- 10. <u>Uncollectible Expense.</u> The Parties agree that uncollectible expense should no longer be recovered through the Company's base rates, but instead should be transferred to and recovered as a separate component through the SBC. Accordingly, commencing on the Effective Date, the Company shall implement the adjusted SBC rate as set forth in Schedule F that will collect the Company's uncollectible expense along with the other costs recovered through the SBC under prior Board orders. The Parties acknowledge that the Stipulation revenue increase reflects an adjustment to the SBC rate in Schedule F that is designed to provide for the annual recovery of \$434,205 in uncollectible expense. The Company will include the reconciliation of the uncollectible expense along with the annual filing made to reconcile the Demand Side Management and Clean Energy Program components of the SBC.<sup>6</sup>
- 11. <u>COSS/Next Case</u>. The Company agrees to submit, as part of its next base rate case, the Staff average and peak cost of service study ("COSS"). Submission of the Staff COSS in the next base rate case does not imply endorsement of the Staff methodology by the Company. The Company, as well as any other party in the future proceeding, is free to submit its preferred cost of service methodology and supporting work papers. Furthermore, simultaneous with the filing of its next base rate case, RECO will provide to the Parties an anticipatory discovery response responding to the following Rate Counsel interrogatory: "Describe the Company's efforts to reduce its embedded cost of debt, if any, including the reasons why specific efforts

<sup>6</sup> Such SBC filing is made by April 1 of every year. Therefore, the Company will include in the SBC filing made by April 1, 2022, the first reconciliation of the uncollectible expense component of the SBC.

were undertaken (or not)." The Parties reserve their rights to propound additional discovery on this issue.

- 12. <u>Residential Bill Impacts</u>. As a result of this Stipulation, a typical residential customer using 925 kWh per month will receive an annualized monthly increase of approximately \$7.65 or 4.5% on a total revenue basis from \$169.33 to \$176.98, including SUT.
- 13. <u>Depreciation.</u> RECO will implement the depreciation lives, life tables, rates and amortizations for electric distribution and general plant as shown on Schedule D.
- 14. Net Salvage. The Parties agree that there is a Net Salvage Deficiency of \$1,037,000 ("Net Salvage Deficiency") representing the amount by which actual negative net salvage costs (*i.e.*, gross salvage less gross removal costs) incurred by the Company exceeded the salvage allowance provided in prior rates. RECO shall recover the Net Salvage Deficiency in rates over a three (3)-year amortization period such that RECO annually shall recover \$346,000 of the Net Salvage Deficiency. In addition, the Parties also agree that the rates established in this Stipulation reflect a going-forward annual net salvage recovery allowance of \$1,051,000.
- 15. <u>Accumulated Depreciation Reserve</u>. In the 2017 Base Rate Order, the Board recognized a \$9,781,234 surplus in the accumulated reserve for depreciation on RECO's distribution plant assets as of February 28, 2017, and approved RECO's return of that amount in rates over a 15-year amortization period (March 2017 February 2032) such that RECO annually shall return \$652,082. The rates established in this Stipulation continue the annual return of \$652,082 of the surplus established in BPU Docket No. ER16050428.

10

<sup>&</sup>lt;sup>7</sup> In re the Verified Petition of Rockland Electric Company for Approval of Changes in Electric Rates, its Tariff for Electric Service, and its Depreciation Rates; Approval of an Advanced Metering Program; and for Other Relief, Order Approving Stipulation, BPU Docket No. ER16050428 and OAL Docket No. PUC 12099-2016, Order dated February 22, 2017 at 4.

16. Regulatory Assets/Deferral Balances. The Parties acknowledge that the stipulated revenue increase includes the recovery over a three (3)-year amortization period of the following agreed-upon regulatory assets: 1) \$200,000 for rate case costs, 2) \$9,188,000 for deferred, unrecovered storm costs excluding costs from Tropical Storm Henri, and 3) \$9,964,000 for the continuation of the regulatory assets approved by the Board for full recovery in BPU Docket No. ER19050552 that remain unrecovered. The amortizations addressed above in this paragraph do not include any carrying charges. In addition, the amortizations addressed above in this paragraph do not include the amortization of the accumulated depreciation reserve surplus, the amortization of deferred costs related to Tropical Storm Henri, or the recovery of net salvage, which are addressed in other paragraphs of this Stipulation. In the event that the Company files a base rate case ("Subsequent Rate Case"), with base rates to become effective within three (3) years of the Effective Date, the Company will be allowed to recover any unrecovered balance of regulatory assets approved in this Stipulation in the Subsequent Rate Case. Regardless of when RECO files its next base rate case, the Parties agree that if new rates resulting from a base rate case are not effective prior to January 1, 2025, the amortizations in this paragraph, as well as paragraph 19 (amortization of Henri costs) and paragraph 20 (amortization of TBC/TBC-Tax net amount) will be eliminated on January 1, 2025, and rates will be reduced to reflect the elimination of those amortizations without being offset by other alleged cost increases through a uniform percentage decrease to base distribution charges to all SCs. The uniform percentage decrease will not be applied to customer charges. The base distribution rates that are revised as a result of the elimination of the amortization will be calculated using the billing determinants underlying the distribution rates established in this proceeding. If necessary, the Company will make a tariff filing by November 1, 2024 with the revised rates to be effective January 1, 2025.

17. Deferred COVID Expenses. On July 2, 2020, the Board issued its Order Authorizing Establishment of a Regulatory Asset for Incremental COVID-19 Related Expenses ("COVID Order") in Docket No. AO20060471.8 The COVID Order authorized each of the State's regulated public utilities to create a COVID-19 regulatory asset by deferring on their books and records the prudently incurred incremental costs related to COVID-19 beginning on March 9, 2020 through September 30, 2021. Among other things, the COVID Order ordered that (i) all affected utilities file a petition with the Board by December 31, 2021, or within 60 days of the close of the regulatory asset period, whichever is later, and (ii) any potential rate recovery, including any prudency determinations and the appropriate period of recovery for any approved amount of the regulatory asset and any associated savings, be addressed in this COVID-19 regulatory asset filing, or alternatively, a utility may request that the Board defer consideration of rate recovery in a future base rate case. The Board modified the COVID Order by an Order dated September 14, 2021 in Docket No. AO20060471 ("Modified COVID Order"). The Modified COVID Order extended the regulatory asset period from September 30, 2021, to December 31, 2022, and required that affected utilities file a petition for recovery of these assets within 60 days of this new date. In Exhibit P-2, Schedule 10, of its Rate Petition and subsequent updates for actuals, the Company requested to amortize and recover over three (3) years the Company's deferred COVID-19 related expenditures (i.e., incremental O&M, uncollectible expense, and Late Payment charges that will not be billed, offset by payroll tax

-

<sup>&</sup>lt;sup>8</sup> In re the Matter of the New Jersey Board of Public Utilities' Response to the COVID-19 Pandemic, Order Authorizing Establishment of a Regulatory Asset for Incremental COVID-19 Related Expenses, BPU Docket No. AO20060471, Order dated July 2, 2020.

<sup>&</sup>lt;sup>9</sup> In re the Matter of the New Jersey Board of Public Utilities' Response to the COVID-19 Pandemic, Order, BPU Docket No. AO20060471, Order dated September 14, 2021.

credits). As part of this Stipulation, the Parties agree that the Company will address the recovery of its deferred COVID-19 related expenditures set forth in Exhibit P-2, Schedule 10 (and as updated), in the Petition to be filed with the Board by March 1, 2023, in accordance with the Modified COVID Order, and that the Company's deferred COVID-19 related expenditures are not included in the calculation of revenue requirements or the rates established in this Stipulation.

- 18. <u>Storm Reserve/Future Deferral</u>. The Parties agree that the rates established in this Stipulation include an annual funding recovery allowance for the storm reserve of \$1.75 million. As determined in Board's Decision and Order Adopting Initial Decision and Stipulation of Settlement ("2020 Rate Order") (BPU Docket No. ER19050552)<sup>10</sup>, RECO's storm costs for an individual storm shall qualify for deferred accounting if RECO incurs incremental costs of \$300,000 and the storm caused 10% or more of the customers located in either (i) RECO's Bergen County service territory (approximately 59, 000 customers), or (ii) RECO's combined Passaic County and Sussex County service territories (approximately 13,600 customers) to be without electric service. The Parties agree that RECO may petition the Board for approval of deferred accounting treatment for storm costs related to individual storms that are not subject to deferred accounting under the foregoing sentence.
- 19. <u>Henri Petition resolution</u>. As part of the resolution of the Henri Petition and the Rate Petition, the Company shall 1) defer \$2.389 million in a regulatory asset, representing 85% of the \$2.810 million in Henri costs reflected in the 12+0 Update which the Company sought to defer in the Henri Petition, and 2) amortize and recover the \$2.389 million over a three (3)-year

<sup>10</sup> 2020 Rate Order at page 5, approving Stipulation paragraph 15.

13

\_

period in base rates at an annual allowance of \$796,270. The Parties also agree that RECO may petition the Board for consideration of a modification of the storm deferral mechanism set forth in the second sentence of paragraph 18 to address deferral of pre-staging and mobilization costs in circumstances where the storm does not materialize or the parameters of the current clause are not met. The Board Order approving this Stipulation shall conclude and close the Henri Petition matter in BPU Docket No. ER21091143.

20. Securitization Petition Resolution. The winding up of the Transition Bond Transaction authorized in the Board's May 26, 2004 Bondable Stranded Costs Rate Order (Docket No. EF02110852) shall be accomplished as set forth in this paragraph. The Transition Bond Transaction has been completed as a result of the Transition Bonds being paid off in May 2019 and the TBC and TBC-Tax rates being set to \$0 effective June 1, 2019. The Parties agree that the Board should authorize RECO (and the Board of Managers of RECO Transition LLC, to the extent necessary) to: (i) eliminate RECO's interest and terminate RECO's membership in RECO Transition, LLC, including the return to RECO of its equity investment and interest thereon, (ii) dissolve RECO Transition LLC and file a Certification of Cancellation with the Secretary of State of Delaware Division of Corporations, and (iii) terminate the contract with the two (2) independent managers of the Board of Managers for RECO Transition LLC. In addition, there is a net over-collected amount of \$63,000 from RECO's customers relating to the TBC and TBC-Tax collections that reflects the amount of \$1,062,000 over-collected through the TBC plus interest, offset by \$999,000 that was under-collected through the TBC-Tax component. The \$63,000 amount shall be a regulatory liability that shall be refunded to customers in base rates through a three (3) -year amortization (i.e., at a rate of \$21,000 per year), beginning on January 1, 2022. In the event that the Company files a base rate case ("Subsequent Rate Case"), with

base rates to become effective within three (3) years of the Effective Date, the Company will be required to return any unamortized balance of this regulatory liability in the Subsequent Rate Case. The Board Order approving this Stipulation shall conclude and close the Securitization Petition matter in BPU Docket No. EO021030675.

- 21. <u>Customer Service Reporting.</u> The Company agrees to the annual reporting set forth in Schedule E. This reporting is in addition to, and does not relieve the Company of complying with, any other reporting required under Board rules or orders.
- 22. <u>Enhanced Three-Phase Clearing Program</u>. The Company will implement a new vegetation management program, commencing in 2022 by no later than December 31, 2022, that will include the expansion of the maintenance zone around the three-phase conductor from the standard 10 feet under, 10 feet to each side, and 15 feet overhead, out to 15 feet under, 15 feet to each side, and 20 feet overhead.
- 23. <u>Compliance Tariff Filing</u>. Upon approval of this Stipulation by the Board and the Board's issuance of a written Order, the Company will file a compliance Tariff filing showing the issued and effective dates to implement the terms of this Stipulation and the Board's written Order, and the revised Tariff leaves shall become effective on the Effective Date. The Company attached the Tariff leaves for Staff's and Rate Counsel's review in draft format as Schedule F.
- 24. <u>Schedules.</u> All schedules referenced in and attached to this Stipulation are incorporated by reference herein as if set forth in the body of this Stipulation.
- 25. <u>Voluntariness</u>. The Parties agree that this Stipulation is voluntary, consistent with law, and fully dispositive of the issues addressed herein. The Parties have entered this Stipulation after consideration of the Rate Petition and updates, the Securitization Petition, the Henri Petition, pre-filed testimony, and discovery.

- 26. Board Approval. The Parties agree that the Board should issue an Order that adopts this Stipulation and thereby: (i) authorizes RECO to increase its electric distribution rates to achieve an additional \$9.65 million in annual revenues; and (ii) approves the agreed-upon electric distribution rates set forth in Schedule B and Schedule F as just and reasonable on the Effective Date determined in accordance with this paragraph. Each Party agrees to use its best efforts to ensure this Stipulation is submitted to the ALJ and Board in a timely fashion and to urge the ALJ and Board to issue expeditiously their approvals of this Stipulation at the earliest date practicable, and issuing and serving a written Order approving this Stipulation and the revenue recovery and rates and charges established herein expeditiously thereafter. The Parties hereby request: (i) that the Board address this matter no later than at one of its agenda meetings scheduled in December 2021; (ii) that the Board thereafter expeditiously issue and serve a written Order approving this Stipulation and the revenue recovery and rates and charges established herein and set an expedited Effective Date; and (iii) that the Board set an Effective Date of January 1, 2022. The Parties' agreements above are consistent with their understanding that the Board's written Order approving this Stipulation will become effective in accordance with N.J.S.A. 48:2-40 upon the service of said Order or upon such date after service as the Board may specify.
- 27. <u>Waiver of Rights of Appeal</u>. Each Party specifically waives any right it may have to seek reconsideration of or to appeal an Order by the Board that approves this Stipulation in the manner provided for herein in its entirety and without modification.
- 28. <u>Rights Upon Disapproval or Modification</u>. This Stipulation contains mutually balancing and interdependent provisions and is intended to be accepted and approved in its entirety. This Stipulation is an integral settlement and the various parts hereof are not severable

without upsetting the balance of agreements and compromises achieved among the Parties. In the event the Board disapproves this Stipulation as a whole, it shall be null and void. In the event that any particular aspect of this Stipulation is not accepted and approved by the Board in its entirety, without modification, or is modified by a court of competent jurisdiction: (i) the Parties are not waiving any legal or procedural rights, arguments or claims they may have before the Board or in any forum, and (ii) this Stipulation shall, at the option and discretion of any Party aggrieved thereby, exercised by written notice to the other Parties within ten (10) days after receipt of any such adverse decision, be null and void in which case the Parties shall be placed in the same position that they were in immediately prior to its execution.

- 29. Party Reservations. This Stipulation represents a negotiated compromise resolution that has been made exclusively for the purpose of resolving the issues addressed in the above-captioned cases and dockets. Although binding on the Parties with respect to the issues resolved herein in this proceeding, this Stipulation, in total or by specific item, is in no way binding upon the Parties and is not to be considered or cited as precedent in favor of or against their respective positions on any issue in any other proceeding, except to enforce the terms of this Stipulation. The Parties agree that the resolution of the issues herein shall apply only to the above-captioned cases and that any similar future cases shall be reviewed by the Board on an individual basis, except as specifically set forth herein. This Stipulation is without prejudice to the positions of the respective Parties with respect to any future base rate cases or other proceedings involving the Company, except as specifically set forth herein. Further, by executing this Stipulation, no Party waives any rights it possesses under any prior Stipulation or Board Order, except where the terms of this Stipulation supersede such prior Stipulation.
  - 30. Governing Law. This Stipulation shall be governed and construed in accordance

with the laws of the State of New Jersey.

31. <u>Execution</u>. This Stipulation may be executed in one or more counterparts, and shall become effective when one or more counterparts have been signed by each of the Parties. Each Party has caused its duly authorized representative to execute below and deliver this Stipulation.

#### **SCHEDULE E**

#### **CUSTOMER SERVICE PERFORMANCE REPORTING**

- 1. Customer Service Reporting. Rockland Electric Company ("RECO") agrees to report to Board Staff and Rate Counsel annually on its performance relative to the nine customer service metrics identified below. The report will include annual historic data, to the extent available, for all nine metrics for the four previous calendar years, as well as year-to-date data for the current year. Tables 1 through 5, below, set forth the information to be reported. If and as feasible, RECO will report data on a New Jersey specific basis.
- 2. **Customer Satisfaction.** RECO agrees to submit its annual Transactional Survey results to Board Staff and Rate Counsel at the same time that it submits these results to the New York Public Service Commission ("NYPSC"). Orange and Rockland's ("O&R") filings to the NYPSC include the results of "transactional" (customer satisfaction) surveys. The Transactional Survey that is reflected in O&R's report to the NYPSC includes New Jersey customers.

### No. 31 BASIC GENERATION SERVICE ("BGS") (Continued)

(1) <u>Basic Generation Service – Residential Small Commercial Pricing (BGS-RSCP)</u> (Continued) Applicable to Service Classification Nos. 1, 2, 3, 4, and 6

Service Classification No. 2 metered customers who are not required to take BGS-CIEP service in accordance with General Information Section No. 31(2) and are located in the Company's Eastern Division may elect to take BGS-CIEP service on a voluntary basis. Such customers must notify the Company no later then the second business day in the month of January of each year to elect BGS-CIEP service for the annual period commencing June 1 of that year. Customers voluntarily taking BGS-CIEP service who, during the applicable annual period, elect to purchase Competitive Energy Supply from a Third-Party Supplier and then return to the Company's BGS, shall be required to take BGS-CIEP service for the remainder of the annual period. Customers voluntarily taking BGS-CIEP service who wish to transfer to BGS-RSCP service as their default supply service must notify the Company no later then the second business day of the month of January in order to effectuate such transfer for service commencing on the following June 1. Customers who do not provide such notification to the Company shall remain on BGS-CIEP service for the twelve-month period commencing the following June 1.

In accordance with Rider SUT, the above charges include provision for the New Jersey Sales and Use Tax. When billed to customers exempt from this tax, as set forth in Rider SUT, such charges will be reduced by the relevant amount of such tax included therein.

ISSUED: EFFECTIVE:

Revised Leaf No. 56 Superseding Revised Leaf No. 56

#### **GENERAL INFORMATION**

## No. 33 SOCIETAL BENEFITS CHARGE ("SBC")

The SBC shall be applied to the kWh usage on the bills of all customers served under this Schedule. The SBC shall include costs, including current costs and any refund or recovery of prior period over- or under-collection balances, related to:

- (1) demand-side management ("DSM"), including the costs associated with DSM programs and DSM bidding programs;
- (2) Clean Energy Program, ("CEP");
- (3) Universal Service Fund and Lifeline; and
- (4) Uncollectible Expense

The SBC to be effective on and after the date indicated below shall be set at 0.6811 cents per kWh, including sales and use tax ("SUT"). The SBC includes the following rate components:

	SBC Rate Components (¢ per kWh)	
	Excluding SUT	Including SUT
DSM & CEP	0.3051	0.3253
Universal Service Fund	0.2315	0.2468
Lifeline	0.0738	0.0787
Uncollectible Expense	0.0284	0.0303
Total SBC	0.6388	0.6811

The difference between actual costs incurred by the Company for the SBC components described above and SBC recoveries will be deferred, with interest, for future recovery in accordance with the Company's Plan for Resolution of Proceedings approved by the Board in its Summary Order dated July 28, 1999 and Final Order dated July 22, 2002 in Docket Nos. EO97070464, EO97070465 and EO97070466.

Revised Leaf No. 57 Superseding Revised Leaf No. 57

#### **GENERAL INFORMATION**

## No. 33 SOCIETAL BENEFITS CHARGE ("SBC") (Continued)

On April 1 of each year, the Company shall file with the Board the SBC rate components listed in (a) and (b) above for inclusion in the SBC effective for the twelve-month period commencing the following August 1. Such rate components shall be set to amortize any over- or under-recovered balances, including interest, calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455, and to provide current program cost recovery over the twelve-month period commencing the following August 1.

On July 1 of each year, the Company shall file with the Board the Universal Service Fund and Lifeline rate components for inclusion in the SBC effective for the twelve-month period commencing the following October 1. Such rate components shall be set to recovery any under recovered balances, including interest, calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455, and to provide current program cost recovery over the twelve-month period commencing the following October 1, consistent with the Board's Universal Service Fund and Lifeline directives.

On April 1 of each year, the Company shall file with the Board the Uncollectible Expense rate component for inclusion in the SBC effective for the twelve-month period commencing the following August 1. The Uncollectible Expense rate component filing each year shall include: (1) the true-up of prior periods' actual customer uncollectible bad debt expense with revenues recovered through the surcharge; and (2) a forecast of the customer uncollectible bad debt expense for the 12-month period ending July 31 of the following year. Interest on any over- or under-recovered balances shall be calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455.

## GENERAL INFORMATION SERVICE CLASSIFICATION RIDER

## NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS

Applicable to Service Classification Nos. 1, 2, 3, and 7

#### **Eligibility**

A customer operating a qualifying class I renewable energy system as defined at N.J.A.C. 14:8-1.2 ("Customer-generator") located on the customer's side of the electric meter, used at the customer's residence or facility is eligible for service hereunder, provided that (1) the generating capacity of the Customer-generator's facility does not exceed the amount of electricity supplied by the electric power supplier or basic generation service provider to the customer over a historical 12-month period; (2) the Customer-generator's annual peak demand is less than ten megawatts; and (3) the Customer-generator complies with the provisions of this Rider.

The Customer-generator will be required to submit an application for service under this Rider and pay an application processing fee as defined in N.J.A.C. 14:8-5 at the time of application. The Customer-generator will also be required to submit a signed Net Metering Agreement to the Company and the Company's execution of such Net Metering Agreement shall constitute approval for the Customer-generator to receive service hereunder.

Interconnection with the Company's system will be in accordance with the terms and conditions set forth in the Net Metering Agreement. Interconnection costs shall be paid as defined in N.J.A.C. 14:8-5 and shall be in addition to any line extension charge required to meet service requirements.

Net metering shall be available to eligible Customer-generators on a first-come, first-served basis. The Company may be authorized by the Board to cease offering net metering whenever the total rated generating capacity owned and operated by net metering Customer-generators Statewide equals 2.5 percent of the State's peak electricity demand.

## **CORPORATE BUSINESS TAX (CBT)**

Applicable to Service Classifications 1, 2, 3, 4, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), provision for the New Jersey Corporation Business Tax has been included in all customer charges, distribution changes and, where applicable, per luminaire charges applicable under this tariff. The energy tax reform statute exempts the following customers from the CBT provision, and when billed to such customers, the Base Tariff Rates otherwise applicable under this tariff shall be reduced by the provision for the CBT (and related New Jersey Sales and Use Tax) included therein:

- (1) Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.
- (2) Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.
- (3)Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.

## GENERAL INFORMATION SERVICE CLASSIFICATION RIDER (Continued)

### SALES AND USE TAX (SUT)

Applicable to Service Classifications 1, 2, 3, 4, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), as amended by P.L. 2016, c. 57, provision for the New Jersey Sales and Use Tax ("SUT") has been included in all charges applicable under this tariff by multiplying the charges that would apply before application of the SUT by the factor 1.06625.

- (1) The energy tax reform statute exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable under this tariff shall be reduced by the provision for the SUT included therein:
  - (a) Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.
  - (b) Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.
  - (c) Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.
  - (d) Agencies or instrumentalities of the federal government.
  - (e) International organizations of which the United States of America is a member.
- (2) The Business Retention and Relocation Assistance Act (P.L. 2004, c. 65) and subsequent amendment (P.L. 2005, c.374) exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable shall be reduced by the provision for the SUT included therein:
  - (a) A qualified business that employs at least 250 people within an enterprise zone, at least 50% of whom are directly employed in a manufacturing process, for the exclusive use or consumption of such business within an enterprise zone, and

## SERVICE CLASSIFICATION NO. 2 GENERAL SERVICE

### APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to general secondary or primary service customers.

A customer taking primary service whose demand exceeds 1,000 kW during any two of the previous twelve months shall not be eligible for this rate and shall be transferred to Service Classification No. 7. A customer so transferred shall only be eligible for transfer back to Service Classification No. 2 on the annual anniversary of the transfer to Service Classification No. 7 and only if said customer has not exceeded 1,000 kW during any two of the previous twelve months.

All service at one location shall be taken through one meter except that service under Special Provision B shall be separately metered.

Demand billed customers with on-site generation that meet the definition of distributed generation as defined in N.J.S.A. 48:2-21.37 shall be subject to the provisions of Service Classification Rider – Standby Service.

#### **CHARACTER OF SERVICE**

Continuous, 60 cycle, A.C., single or three phase secondary, at approximately 120/208, 120/240 volts, and 277/480 volts where available; or three phase primary at approximately 2400/4160 and 7620/13200 volts Wye, 13000 and 34500 volts Delta, 69000 volts Wye, and in limited areas 2400 or 4800 volts Delta, depending upon the magnitude and characteristics of the load and the circuit from which service is supplied.

(6) **Basic Generation Service** 

> Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31.

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

#### MINIMUM MONTHLY CHARGE

Secondary Service (Non-Demand Billed)

Unmetered Service \$14.00 \$16.00 Metered Service

Secondary Service (Demand Billed) \$24.00 Plus the demand charge. **Primary Service** \$100.00 Plus the demand charge.

## **DETERMINATION OF DEMAND**

The monthly billing demand in kW shall be either the greatest connected load or the greatest 15minute integrated demand, determined as follows:

- (1) Billing demand may be on a connected load basis when
  - (a) demand meter would not reduce the billing demand, or
  - (b) the installation is temporary, or
  - (c) the device has a large instantaneous or highly fluctuating demand.
- (2) Billing shall be on a demand meter basis in all other cases and shall be billed at not less than 90% of the kVA demand. The billing demand for the billing months of October through May inclusive shall not be less than 70% of the highest metered demand for the preceding billing months of June through September inclusive.

#### DRAFT

Revised Leaf No. 93 Superseding Revised Leaf No. 93

# SERVICE CLASSIFICATION NO. 2 GENERAL SERVICE (Continued)

#### **SPECIAL PROVISIONS**

### (A) Short Term Secondary Service

When short term service is requested, the Company reserves the right to require a deposit of the estimated bill for the period service is desired. The minimum charge for such short term service shall be an amount equal to six times the minimum monthly charge, payable in advance. When construction is necessary, the cost of installation and removal of all equipment, less salvage value, shall be borne by the customer, and a sufficient amount to cover these charges shall be paid in advance. A part of a month shall be considered a full month for computing all charges hereunder.

### (B) Space Heating

Customers who take service under this classification for 10 kW or more of permanently installed space heating equipment may elect to have the electricity for this service billed separately. All monthly use shall be billed at a Distribution Charge of  $3.679~\phi$ /kWh during the billing months of October through May and  $6.129~\phi$ /kWh during the summer billing months. When this option is requested it shall apply for at least 12 months and shall be subject to a minimum charge of \$26.87 per year per kW of space heating capacity. This provision applies for both heating and cooling where the two services are combined by the manufacturer in a single self-contained unit.

All usage under this Special Provision shall also be subject to Parts (3), (4), and (6) of RATE – MONTHLY.

This special provision is closed to new customers effective August 1, 2014.

## SERVICE CLASSIFICATION NO. 3 RESIDENTIAL TIME-OF-DAY HEATING SERVICE

#### APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to residential customers where an approved electric storage heater is used for customer's entire water heating requirements and/or permanently installed electric space heating equipment is the sole source of space heating, excluding fire places, on the premises. Solar energy collection devices may be used to supplement customer's water and/or space heating requirements.

#### **CHARACTER OF SERVICE**

Continuous, 60 cycle, A.C., from any of the following systems as designated by the Company:

- (1) Single phase at approximately 120,120/208 or 120/240 volts.
- (2) Three phase four wire at approximately 120/208 volts in limited areas.

# SERVICE CLASSIFICATION NO. 6 PRIVATE OVERHEAD LIGHTING SERVICE (Continued)

#### MINIMUM CHARGE

The minimum charge per luminaire for Service Type A or B shall be the sum of the monthly Distribution and Transmission Charges as specified in RATE – MONTHLY, Part (1a) times twelve. Should the monthly charge be revised during the initial term, the minimum charge per installation shall be prorated accordingly.

The minimum charge for Service Type C - Metered shall be \$16.00 per month and not less than \$192.00 for the initial term.

The minimum charge for Service Type C - Unmetered shall be \$4.00 per month and not less than \$48.00 for the initial term.

#### **TERM**

The Initial Term shall be one year. Service shall continue in effect thereafter until canceled by either party upon thirty days written notice. The Company shall require an Initial Term of one year for each luminaire for Service Types A or B.

### **TERMS OF PAYMENT**

Bills are due in accordance with General Information Section No. 10.

### **SPECIAL PROVISIONS**

Special Provisions A, B, D, E, F, and J apply only to Service Types A and B. Special Provision K applies only to Service Type C. Special Provisions C, G, H, and I apply to Service Types A, B, and C.

- (A) Street lighting luminaires will normally be mounted on eight foot aluminum brackets. Fifteen foot brackets are available at an additional charge of \$0.71 per bracket per month.
- (B) Luminaires will be installed free of charge where all facilities necessary to serve a luminaire are present. Customer shall pay the cost of any additional facilities required, prior to the commencement of the construction of such facilities.
- (C) The customer shall furnish the Company with all easements or rights-of-way necessary to provide service to the desired location before any installation or construction will be started.
- (D) A customer may apply for service hereunder for a proposed residential subdivision in which all electric facilities will be underground. Such application shall be signed by the customer and builder or developer and when accepted by the Company, shall constitute an agreement between the Company, customer and builder or developer subject to the terms and provisions hereunder.

The builder or developer shall pay to the Company prior to the commencement of any construction all costs associated with the installation of the facilities to be serviced hereunder and shall prepay six times the total monthly charge for all luminaires installed. Said monthly charges shall be determined using the rates in effect at the time said costs and charges are determined. The Company shall not bill the customer for the first six months of service of the facilities installed under this special provision.

(E) The Company shall not be obligated to repair or replace in kind any obsolete luminaire for which it cannot reasonably obtain the necessary parts. The Company will remove the obsolete luminaire or at the customer's request, replace it with any luminaire offered for service at that time for which the customer will be charged the appropriate rates.

## SERVICE CLASSIFICATION NO. 7 LARGE GENERAL TIME-OF-DAY SERVICE

#### APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to primary service customers who maintain a minimum demand of 1,000 kW during any two of the previous twelve months and provide all equipment required to take service at a primary voltage as designated by the Company. A primary customer who does not maintain a demand of at least 1,000 kW during any two of the previous twelve months, may, at the customer's option transfer to another Service Classification provided that such transfer shall only be made on an annual anniversary date that such customer began service hereunder.

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to high voltage distribution service customers with a minimum demand of 1,000 kW who provide all equipment required to take high voltage distribution service as designated by the Company. High voltage distribution service shall be made available at the sole discretion of the Company where conditions merit.

Customers with generators that meet the definition of distributed generation as defined in N.J.S.A. 48:2-21.37 shall be subject to the provisions of Service Classification Rider – Standby Service.

All service at one location shall be taken through one meter except that service taken under Special Provision A shall be separately metered.

### **CHARACTER OF SERVICE**

Continuous, 60 cycles, A.C., single or three phase primary or high voltage distribution service as defined in General Information Section 26 and depending on the magnitude and characteristics of the load and the circuit from which service is supplied.

### DRAFT

Revised Leaf No. 127 Superseding Revised Leaf No. 127

# SERVICE CLASSIFICATION NO. 7 LARGE GENERAL TIME-OF-DAY SERVICE (Continued)

### **SPECIAL PROVISIONS**

### (A) Space Heating

Customers who take service under this classification for 10 kW or more of permanently installed space heating equipment may elect to have the electricity for this service billed separately. All monthly use shall be billed at a Distribution Charge of 3.973 ¢ per kWh during the billing months of October through May and 6.423 ¢ per kWh during the summer billing months, a Transmission Charge of 0.404 ¢ per kWh and a Transmission Surcharge of 0.404 ¢ per kWh during all billing months. The applicability of Transmission Charges and the Transmission Surcharge is described in Part (3) of RATE – MONTHLY.

When this option is requested it shall apply for at least 12 months and shall be subject to a minimum charge of \$26.87 per year per kW of space heating capacity. This provision applies for both heating and cooling where the two services are combined by the manufacturer in a single self-contained unit.

All usage under this Special Provision shall also be subject to Parts (4), (5), and (6) of RATE – MONTHLY. This Special Provision is not available to those customers taking high voltage distribution service.

This special provision is closed to new customers effective August 1, 2014.

### (B) Budget Billing Plan

Any condominium association or cooperative housing corporation who takes service hereunder and any other customer taking service under Special Provision B of this Service Classification may, upon request, be billed monthly in accordance with the budget billing plan provided for in General Information Section 8 of this tariff.

## No. 31 BASIC GENERATION SERVICE ("BGS")

(1) <u>Basic Generation Service – Residential Small Commercial Pricing (BGS-RSCP)</u> Applicable to Service Classification Nos. 1, 2, 3, 4, 5-and 6

Applicable to Service Classification Nos. 1, 2 (Non-Demand Billed), 3, 4, <del>5,</del> and 6 Charges per kilowatthour:

Service Classification	Summer Months*	Other Months
1 – First 600 kWh	5.975¢	8.125¢
1 – Over 600 kWh	9.968¢	8.125¢
2 - (Non-Demand Billed) - All kWh	7.146¢	6.258¢
3 – Peak	12.816¢	11.415¢
3 – Off-Peak	5.150¢	4.866¢
4 – All kWh	5.266¢	5.036¢
5 – First 600 kWh	5.975¢	8.125¢
5 – Over 600 kWh	9.968¢	8.125¢
6 – All kWh	5.258¢	5.022¢

Applicable to Service Classification No. 2 Demand Billed customers who do not take BGS-CIEP service in accordance with General Information Section No. 31(2):

	Summer Months*	Other Months
Demand Charges		
First 5 kW (\$/kW)	1.69	1.44
Over 5 kW (\$/kW)	5.82	5.07
Usage Charges		
All kWh (¢/kWh)	5.864¢	5.321¢

The above Basic Generation Service Charges reflect costs for Energy, Generation Capacity, and Ancillary Services (including ISO Administrative Charges).

#### GENERAL INFORMATION

## No. 31 BASIC GENERATION SERVICE ("BGS") (Continued)

(1) <u>Basic Generation Service – Residential Small Commercial Pricing (BGS-RSCP)</u> (Continued) Applicable to Service Classification Nos. 1, 2, 3, 4, 5-and 6

Service Classification No. 2 metered customers who are not required to take BGS-CIEP service in accordance with General Information Section No. 31(2) and are located in the Company's Eastern Division may elect to take BGS-CIEP service on a voluntary basis. Such customers must notify the Company no later then the second business day in the month of January of each year to elect BGS-CIEP service for the annual period commencing June 1 of that year. Customers voluntarily taking BGS-CIEP service who, during the applicable annual period, elect to purchase Competitive Energy Supply from a Third-Party Supplier and then return to the Company's BGS, shall be required to take BGS-CIEP service for the remainder of the annual period. Customers voluntarily taking BGS-CIEP service who wish to transfer to BGS-RSCP service as their default supply service must notify the Company no later then the second business day of the month of January in order to effectuate such transfer for service commencing on the following June 1. Customers who do not provide such notification to the Company shall remain on BGS-CIEP service for the twelve-month period commencing the following June 1.

In accordance with Rider SUT, the above charges include provision for the New Jersey Sales and Use Tax. When billed to customers exempt from this tax, as set forth in Rider SUT, such charges will be reduced by the relevant amount of such tax included therein.

ISSUED: EFFECTIVE:

Revised Leaf No. 56 Superseding Revised Leaf No. 56

#### **GENERAL INFORMATION**

# No. 33 SOCIETAL BENEFITS CHARGE ("SBC")

The SBC shall be applied to the kWh usage on the bills of all customers served under this Schedule. The SBC shall include costs, including current costs and any refund or recovery of prior period over- or under-collection balances, related to:

- (1) demand-side management ("DSM"), including the costs associated with DSM programs and DSM bidding programs;
- (2) Clean Energy Program, ("CEP"); and
- (3) Universal Service Fund and Lifeline-; and
- (4) Uncollectible Expense

The SBC to be effective on and after the date indicated below shall be set at 0.6811 cents per kWh, including sales and use tax ("SUT"). The SBC includes the following rate components:

	SBC Rate Components (¢ per kWh)		
	Excluding SUT Including SUT		
DSM & CEP	0.3051	0.3253	
Universal Service Fund	0.2315	0.2468	
Lifeline	0.0738	0.0787	
Uncollectible Expense	<mark>0.0284</mark>	<mark>0.0303</mark>	
Total SBC	<mark>0.6388</mark>	<mark>0.6811</mark>	

The difference between actual costs incurred by the Company for the SBC components described above and SBC recoveries will be deferred, with interest, for future recovery in accordance with the Company's Plan for Resolution of Proceedings approved by the Board in its Summary Order dated July 28, 1999 and Final Order dated July 22, 2002 in Docket Nos. EO97070464, EO97070465 and EO97070466.

## DRAFT

Revised Leaf No. 57 Superseding Revised Leaf No. 57

#### **GENERAL INFORMATION**

## No. 33 SOCIETAL BENEFITS CHARGE ("SBC") (Continued)

On April 1 of each year, the Company shall file with the Board the SBC rate components listed in (a) and (b) above for inclusion in the SBC effective for the twelve-month period commencing the following August 1. Such rate components shall be set to amortize any over- or under-recovered balances, including interest, calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455, and to provide current program cost recovery over the twelve-month period commencing the following August 1.

On July 1 of each year, the Company shall file with the Board the Universal Service Fund and Lifeline rate components for inclusion in the SBC effective for the twelve-month period commencing the following October 1. Such rate components shall be set to recovery any under recovered balances, including interest, calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455, and to provide current program cost recovery over the twelve-month period commencing the following October 1, consistent with the Board's Universal Service Fund and Lifeline directives.

On April 1 of each year, the Company shall file with the Board the Uncollectible Expense rate component for inclusion in the SBC effective for the twelve-month period commencing the following August 1. The Uncollectible Expense rate component filing each year shall include: (1) the true-up of prior periods' actual customer uncollectible bad debt expense with revenues recovered through the surcharge; and (2) a forecast of the customer uncollectible bad debt expense for the 12-month period ending July 31 of the following year. Interest on any over- or under-recovered balances shall be calculated as determined by the Board in its Order dated October 21, 2008 in Docket Number ER08060455.

#### No. 35 SECURITIZATION CHARGES

On May 26, 2004, the Board issued a Bondable Stranded Costs Rate Order in Docket No. EF02110852 ("Financing Order") authorizing the issuance and sale of transition bonds in the amount of \$46.3 million to provide the Company recovery of bondable stranded costs.

The Financing Order also authorized the implementation of a non-bypassable Transition Bond Charge ("TBC") and TBC-Tax. The TBC has been established, and will be adjusted periodically, in accordance with the methodology approved in the Financing Order to recover ongoing bondable stranded costs as defined in the Financing Order. The TBC-Tax has been set, and will be adjusted periodically, in accordance with the methodology approved in the Financing Order to recover federal income taxes and state corporate business taxes associated with the taxable net revenue from the TBC and the TBC-Tax.

The TBC and TBC-Tax shall be applied to the kWh usage on the bills of all customers served under this Schedule. The TBC and TBC-Tax to be effective on and after the date indicated below are as follows:

	Rate Component (¢ per kWh)	
	Excluding SUT	Including SUT
TBC	0.000	0.000
TBC-Tax	0.000	0.000

# GENERAL INFORMATION SERVICE CLASSIFICATION RIDER

# NET METERING AND INTERCONNECTION STANDARDS FOR CLASS I RENEWABLE ENERGY SYSTEMS

Applicable to Service Classification Nos. 1, 2, 3, 5-and 7

## **Eligibility**

A customer operating a qualifying class I renewable energy system as defined at N.J.A.C. 14:8-1.2 ("Customer-generator") located on the customer's side of the electric meter, used at the customer's residence or facility is eligible for service hereunder, provided that (1) the generating capacity of the Customer-generator's facility does not exceed the amount of electricity supplied by the electric power supplier or basic generation service provider to the customer over a historical 12-month period; (2) the Customer-generator's annual peak demand is less than ten megawatts; and (3) the Customer-generator complies with the provisions of this Rider.

The Customer-generator will be required to submit an application for service under this Rider and pay an application processing fee as defined in N.J.A.C. 14:8-5 at the time of application. The Customer-generator will also be required to submit a signed Net Metering Agreement to the Company and the Company's execution of such Net Metering Agreement shall constitute approval for the Customer-generator to receive service hereunder.

Interconnection with the Company's system will be in accordance with the terms and conditions set forth in the Net Metering Agreement. Interconnection costs shall be paid as defined in N.J.A.C. 14:8-5 and shall be in addition to any line extension charge required to meet service requirements.

Net metering shall be available to eligible Customer-generators on a first-come, first-served basis. The Company may be authorized by the Board to cease offering net metering whenever the total rated generating capacity owned and operated by net metering Customer-generators Statewide equals 2.5 percent of the State's peak electricity demand.

# GENERAL INFORMATION SERVICE CLASSIFICATION RIDER (Continued)

## **CORPORATE BUSINESS TAX (CBT)**

Applicable to Service Classifications 1, 2, 3, 4, 5, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), provision for the New Jersey Corporation Business Tax has been included in all customer charges, distribution changes and, where applicable, per luminaire charges applicable under this tariff. The energy tax reform statute exempts the following customers from the CBT provision, and when billed to such customers, the Base Tariff Rates otherwise applicable under this tariff shall be reduced by the provision for the CBT (and related New Jersey Sales and Use Tax) included therein:

- Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.
- (2) Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.
- (3) Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.

ISSUED: EFFECTIVE:

# GENERAL INFORMATION SERVICE CLASSIFICATION RIDER (Continued)

## SALES AND USE TAX (SUT)

Applicable to Service Classifications 1, 2, 3, 4, 5, 6, and 7

In accordance with P.L. 1997, c. 192 (the "energy tax reform statute"), as amended by P.L. 2016, c. 57, provision for the New Jersey Sales and Use Tax ("SUT") has been included in all charges applicable under this tariff by multiplying the charges that would apply before application of the SUT by the factor 1.06625.

- (1) The energy tax reform statute exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable under this tariff shall be reduced by the provision for the SUT included therein:
  - (a) Franchised providers of utility services (gas, electricity, water, waste water and telecommunications services provided by local exchange carriers) within the State of New Jersey.
  - (b) Cogenerators in operation, or which have filed an application for an operating permit or a construction permit and a certificate of operation in order to comply with air quality standards under P.L. 1954, c. 212 (C.26:2C-1 et seq.) with the New Jersey Department of Environmental Protection, on or before March 10, 1997.
  - (c) Special contract customers for which a customer-specific tax classification was approved by a written Order of the Board prior to January 1, 1998.
  - (d) Agencies or instrumentalities of the federal government.
  - (e) International organizations of which the United States of America is a member.
- (2) The Business Retention and Relocation Assistance Act (P.L. 2004, c. 65) and subsequent amendment (P.L. 2005, c.374) exempts the following customers from the SUT provision, and when billed to such customers, the charges otherwise applicable shall be reduced by the provision for the SUT included therein:
  - (a) A qualified business that employs at least 250 people within an enterprise zone, at least 50% of whom are directly employed in a manufacturing process, for the exclusive use or consumption of such business within an enterprise zone, and

Customers taking Basic Generation Service from the Company will be billed for such service in accordance with General Information Section No. 31.

In accordance with Riders CBT and SUT, the charges in this Rate Schedule include provision for the New Jersey Corporation Business Tax and the New Jersey Sales and Use Tax. When billed to customers exempt from one or more of these taxes, as set forth in Riders CBT and SUT, such charges will be reduced by the relevant amount of such taxes included therein.

#### MINIMUM MONTHLY CHARGE

Secondary Service (Non-Demand Billed)

Unmetered Service \$14.00 Metered Service \$16.00

Secondary Service (Demand Billed) \$24.00 Plus the demand charge.

Primary Service \$100.00 Plus the demand charge.

## **DETERMINATION OF DEMAND**

The monthly billing demand in kW shall be either the greatest connected load or the greatest 15-minute integrated demand, determined as follows:

- (1) Billing demand may be on a connected load basis when
  - (a) demand meter would not reduce the billing demand, or
  - (b) the installation is temporary, or
  - (c) the device has a large instantaneous or highly fluctuating demand.
- (2) Billing shall be on a demand meter basis in all other cases and shall be billed at not less than 90% of the kVA demand. The billing demand for the billing months of October through May inclusive shall not be less than 70% of the highest metered demand for the preceding billing months of June through September inclusive.

## **DRAFT**

Revised Leaf No. 93 Superseding Revised Leaf No. 93

# SERVICE CLASSIFICATION NO. 2 GENERAL SERVICE (Continued)

## **SPECIAL PROVISIONS**

## (A) Short Term Secondary Service

When short term service is requested, the Company reserves the right to require a deposit of the estimated bill for the period service is desired. The minimum charge for such short term service shall be an amount equal to six times the minimum monthly charge, payable in advance. When construction is necessary, the cost of installation and removal of all equipment, less salvage value, shall be borne by the customer, and a sufficient amount to cover these charges shall be paid in advance. A part of a month shall be considered a full month for computing all charges hereunder.

## (B) Space Heating

Customers who take service under this classification for 10 kW or more of permanently installed space heating equipment may elect to have the electricity for this service billed separately. All monthly use shall be billed at a Distribution Charge of  $\frac{3.679}{6.129}$  ¢/kWh during the billing months of October through May and  $\frac{6.129}{6.129}$  ¢/kWh during the summer billing months. When this option is requested it shall apply for at least 12 months and shall be subject to a minimum charge of \$26.87 per year per kW of space heating capacity. This provision applies for both heating and cooling where the two services are combined by the manufacturer in a single self-contained unit.

All usage under this Special Provision shall also be subject to Parts (3), (4), and (6) of RATE – MONTHLY.

This special provision is closed to new customers effective August 1, 2014.

## (b) <u>Transmission Charges</u>

A Transmission Charge of 1.223 ¢ per kWh will apply to all customers taking Basic Generation Service from the Company. Transmission charges are also applicable to customers located in the Company's Central and Western Divisions and obtaining Competitive Energy Supply. Transmission charges are not applicable to customers located in the Company's Eastern Division and obtaining Competitive Energy Supply. The Company's Eastern, Central and Western Divisions are defined in General Information Section No. 1. A Transmission Surcharge, to recover Reliability Must Run Charges, of 0.000 ¢ per kWh will also apply to all customers taking Basic Generation Service from the Company.

Transmission Charges shall be applied to the kWh estimate in the following manner:

kWh = (Total Wattage divided by 1,000) times Monthly Burn Hours\*

\*See Monthly Burn Hours Table

RESIDENTIAL SPACE HEATING SERVICE (Continued)

———(A)	Resistance Heating Equipment
	No new residential customers with electric resistance space heating equipment will be provided hereunder unless one of the following conditions is met:
	(a) The electric resistance heating equipment is supplementary to a heat pump system, energy storage system, or a system for which a renewable resource is the primary energy input;
	(b) The customer established that heat requirements will be seasonal in nature and thus electric resistance is the most economic heat source for the customer.
——— <del>(B)</del> —	Religious Houses of Worship
	Service will also be furnished to a religious house of worship and adjacent buildings (other than school buildings which substitute for public education), owned by the customer and operated in connection therewith, provided, however, that if the buildings of any such customer are separated by a highway or highways, then the electricity delivered to each so separated shall not be combined with the electricity delivered to other buildings but shall be billed separately under rates as specified in the applicable service classification.
<del>(C)</del>	Short Term Service
	Customers desiring service under this schedule for less than six months, where service is already installed, shall pay in advance the contract minimum as specified under "Minimum Charge Each Contract Each Location" or under an applicable line extension agreement, or, if the estimated bill for two months or such shorter period as service may be desired exceeds the contract minimum, the Company reserves the right to request a deposit equal to this estimated bill. A part of a month shall be considered a full month for computing all charges hereunder.
——————————————————————————————————————	Budget Billing Plan
	Any customer taking service hereunder may, upon request, be billed monthly in accordance with the budget billing plan as provided for in General Information Section 8 of this tariff.

## **SPECIAL PROVISIONS**

Special Provisions A, B, D, E, F, and J apply only to Service Types A and B. Special Provision K applies only to Service Type C. Special Provisions C, G, H, and I apply to Service Types A, B, and C.

- (A) Street lighting luminaires will normally be mounted on eight foot aluminum brackets. Fifteen foot brackets are available at an additional charge of \$0.71 per bracket per month.
- (B) Luminaires will be installed free of charge where all facilities necessary to serve a luminaire are present. Customer shall pay the cost of any additional facilities required, prior to the commencement of the construction of such facilities.
- (C) The customer shall furnish the Company with all easements or rights-of-way necessary to provide service to the desired location before any installation or construction will be started.
- (D) A customer may apply for service hereunder for a proposed residential subdivision in which all electric facilities will be underground. Such application shall be signed by the customer and builder or developer and when accepted by the Company, shall constitute an agreement between the Company, customer and builder or developer subject to the terms and provisions hereunder.

The builder or developer shall pay to the Company prior to the commencement of any construction all costs associated with the installation of the facilities to be serviced hereunder and shall prepay six times the total monthly charge for all luminaires installed. Said monthly charges shall be determined using the rates in effect at the time said costs and charges are determined. The Company shall not bill the customer for the first six months of service of the facilities installed under this special provision.

(E) The Company shall not be obligated to repair or replace in kind any obsolete luminaire for which it cannot reasonably obtain the necessary parts. The Company will remove the obsolete luminaire or at the customer's request, replace it with any luminaire offered for service at that time for which the customer will be charged the appropriate rates.

Revised Leaf No. 122 Superseding Revised Leaf No. 122

# SERVICE CLASSIFICATION NO. 7 LARGE GENERAL TIME-OF-DAY SERVICE

#### APPLICABLE TO USE OF SERVICE FOR

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to primary service customers who maintain a minimum demand of 1,000 kW during any two of the previous twelve months and provide all equipment required to take service at a primary voltage as designated by the Company. A primary customer who does not maintain a demand of at least 1,000 kW during any two of the previous twelve months, may, at the customer's option transfer to another Service Classification provided that such transfer shall only be made on an annual anniversary date that such customer began service hereunder.

Sales and delivery of electric power supply provided by the Company or delivery of electric power supply provided by an electric generation supplier under the Company's Retail Access Program to high voltage distribution service customers with a minimum demand of 1,000 kW who provide all equipment required to take high voltage distribution service as designated by the Company. High voltage distribution service shall be made available at the sole discretion of the Company where conditions merit.

Customers with generators that meet the definition of distributed generation as defined in N.J.S.A. 48:2-21.37 shall be subject to the provisions of Service Classification Rider – Standby Service.

All service at one location shall be taken through one meter except that service taken under Special Provision A shall be separately metered.

## **CHARACTER OF SERVICE**

Continuous, 60 cycles, A.C., single or three phase primary or high voltage distribution service as defined in General Information Section 26 and depending on the magnitude and characteristics of the load and the circuit from which service is supplied.

#### **SPECIAL PROVISIONS**

## (A) Space Heating

Customers who take service under this classification for 10 kW or more of permanently installed space heating equipment may elect to have the electricity for this service billed separately. All monthly use shall be billed at a Distribution Charge of 3.973 ¢ per kWh during the billing months of October through May and 6.423 ¢ per kWh during the summer billing months, a Transmission Charge of 0.404 ¢ per kWh and a Transmission Surcharge of 0.404 ¢ per kWh during all billing months. The applicability of Transmission Charges and the Transmission Surcharge is described in Part (3) of RATE – MONTHLY.

When this option is requested it shall apply for at least 12 months and shall be subject to a minimum charge of \$26.87 per year per kW of space heating capacity. This provision applies for both heating and cooling where the two services are combined by the manufacturer in a single self-contained unit.

All usage under this Special Provision shall also be subject to Parts (4), (5), and (6) of RATE – MONTHLY. This Special Provision is not available to those customers taking high voltage distribution service.

This special provision is closed to new customers effective August 1, 2014.

## (B) Budget Billing Plan

Any condominium association or cooperative housing corporation who takes service hereunder and any other customer taking service under Special Provision B of this Service Classification may, upon request, be billed monthly in accordance with the budget billing plan provided for in General Information Section 8 of this tariff.
