IN THE MATTER OF THE PETITION OF CUMBERLAND) PREHEARING ORDER WITH COUNTY IMPROVEMENT AUTHORITY FOR THE) PROCEDURAL SCHEDULE APPROVAL OF THE EXTENSION OF ELECTRIC) PUBLIC UTILITY FACILITIES OF ATLANTIC CITY) DOCKET NO. E022020043 ELECTRIC COMPANY PURSUANT TO N.J.S.A. 48:2-27)

Parties of Record:

Brian O. Lipman, Esq., Director, New Jersey Division of Rate Counsel **David Weinstein, Esq.,** Archer & Greiner P.C. on behalf of Cumberland County Improvement Authority

Cynthia L. M. Holland, Esq., Assistant General Counsel, on behalf of Atlantic City Electric Company

BY COMMISSIONER ROBERT M. GORDON:

I. BACKGROUND AND PROCEDURAL HISTORY:

On February 2, 2022, the Cumberland County Improvement Authority ("CCIA" or "Authority") filed a petition with the New Jersey Board of Public Utilities ("Board") seeking approval for the extension or expansion of electric public utility facilities of Atlantic City Electric Company ("ACE" or "Company") ("Petition"). The Authority also requested that ACE fund the proposed extension or expansion, arguing that the Company's original expenditure will be recovered from the business received.

According to the Petition, CCIA developed an Economic Development Strategic Plan for Cumberland County for 2020-2030 ("Plan") for "regional growth and innovation," utilizing a strategy based upon "the ever-changing dynamics of the regional economy, existing assets, and future opportunities to be shaped by innovative thinking, investment, and technology." See Petition at p. 2.

The CCIA described the Plan as the "competitive development [of] infrastructure" which includes "prioritized development locations along with the right buildings and communication networks and electric public utility facilities that allow businesses to function and grow, improving economic opportunity for residents." See Petition at p. 2. The CCIA and Cumberland County established areas in need of redevelopment and created "Redevelopment Zones" to encourage investment

into priority areas. 1 Id.

In the Petition, the Authority stated that ACE has a significant number of areas with closed circuits that have zero hosting capacity in Cumberland County. According to the Authority, under ACE's current Board-approved tariff, "once a section of the grid is closed for further solar installations or has limited capacity for development of major projects, the next customer requesting service or a new solar installation in that area is required to pay for the necessary infrastructure upgrades to the local energy grid." See Petition at p. 5. The Authority further stated that many solar developers would develop solar energy facilities in the Redevelopment Zones, but the current infrastructure does not have the capacity.

Additionally, the CCIA claimed that the development of a 100,000 square foot data center was inhibited. According to the Authority, prospective developers expressed enormous interest in the development of the data center, but as the Authority notes, "the lack of adequate electric utility service to run this facility has hindered the process." See Petition at p. 7. According to the CCIA, current infrastructure provides 2 megawatt ("MW") of electricity at this site, and the proposed data center project would require in excess of 60 MW of service.

In its Petition, the CCIA provided that it would not object if ACE filed a motion to intervene in this matter. Furthermore, the Authority believes that ACE is best suited to describe in detail the nature and costs of the needed expansions or extensions, as well as the construction and maintenance of the project(s).

On February 17, 2022, ACE filed a motion to intervene. On March 3, 2022, the New Jersey Division of Rate Counsel ("Rate Counsel") filed a comment letter of no objection to ACE's motion to intervene.

At its March 23, 2022 Meeting, the Board:

- 1. Ordered that the Petition be retained by the Board for hearing pursuant to N.J.S.A. 48:2-32;
- Designated myself, Commissioner Bob Gordon, as the Presiding Officer with authority to rule on all motions that arise during the pendency of this proceeding, and to modify any schedules that may be set as necessary to secure a just and expeditious determination of the issues;
- 3. Required any entity seeking to intervene or participate file the appropriate application with the Board by April 6, 2022, and any party wishing to file a motion for admission of counsel, pro hac vice, should do so concurrently; and
- 4. Granted ACE's Motion to Intervene, finding that ACE met the standards for intervention as it has a significant interest in this proceeding and it will add measurably and constructively to the proceeding without causing delay.²

2

¹ The Authority provides that the Redevelopment Zones are located in the following municipalities: 1) Bridgeton, 2) Deerfield, 3) Hopewell, 4) Millville, and 5) Upper Deerfield.

² In re the Petition of Cumberland County Improvement Authority for the Approval of the Extension of Electric Public Utility Facilities of Atlantic City Electric Company Pursuant to N.J.S.A. 48:2-27, BPU Docket No. EO22020043, Order dated March 30, 2022 ("March 30, 2022 Order").

II. THE MOTIONS

On February 17, 2022, ACE filed a Motion to Intervene that was granted by Order dated March 30, 2022. As of April 6, 2022, the deadline for filing Motions, no other Motions were filed. <u>See</u> March 30, 2022 Order.

III. PREHEARING ORDER

I reviewed the proposed preliminary schedule agreed to by Board Staff ("Staff"), Rate Counsel, ACE, and CCIA (collectively, "Parties") along with the proposed "Major Policy Issues," and took into consideration the Parties' positions as discussed at the Prehearing Conference.

After careful consideration of the Petition, and the positions of the Parties, I <u>HEREBY ISSUE</u> the following Prehearing Order with Procedural Schedule attached thereto as "Exhibit A", and I <u>HEREBY DIRECT</u> the Parties to comply with its terms.

PREHEARING ORDER

1. NATURE OF PROCEEDINGS AND ISSUES TO BE RESOLVED:

Through this proceeding, CCIA seeks approval for the extension or expansion of ACE's electric public utility facilities in an effort to provide the required electricity for CCIA's "Economic Development Strategic Plan". In its Petition, CCIA claimed that ACE has a significant number of areas with closed circuits that have no solar hosting capacity in Cumberland County and demonstrates a disparity in service between Cumberland County and neighboring counties. CCIA further stated in its Petition that the County does not currently have the electric utility infrastructure required to develop the pending proposed projects or support the significant redevelopment generally identified in the Redevelopment Zones. CCIA maintains that the Redevelopment Zones would provide ACE with new business sufficient to justify the expansion or extension of electric facilities at the Company's expense.

Issues to be Resolved:

- Whether the statutory elements of N.J.S.A. 48:2-23 (requiring utilities to furnish safe, adequate, and proper service) have been satisfied.
- Whether the statutory elements of N.J.S.A. 48:2-27 (extension of facilities) have been satisfied.
- Whether the CCIA is requesting an "extension" as defined under N.J.A.C.14:3-8.2.
- If CCIA is requesting an "extension," whether CCIA's request complies with the Main Extension Rules, N.J.A.C. 14:3-8.1 <u>et seq.</u>
- Whether CCIA's requested relief complies with ACE's Board-approved tariff.
- Whether the cost to construct and maintain the infrastructure for the requested extensions can be placed into utility rates for all ACE customers.
