NOTICE OF PUBLIC HEARING**

**AQUA NEW JERSEY, INC.
NOTICE OF FILING OF A PETITION FOR APPROVAL OF A
DISTRIBUTION SYSTEM IMPROVEMENT CHARGE**

BPU DOCKET NO. WR22050360

PLEASE TAKE NOTICE that on May 31, 2022 Aqua New Jersey, Inc. (the "Company" or "Aqua"), pursuant to N.J.A.C. 14:9-10.1 et seq., filed a Petition with the New Jersey Board of Public Utilities (the "Board") seeking approval of a Foundational Filing to Implement a Distribution System Improvement Charge ("DSIC"). A DSIC is a mechanism established to accelerate investment in the timely rehabilitation and replacement of certain non-revenue producing critical water distribution system components. Among the infrastructure investments that are eligible to be included in a DSIC are: main replacement and renewal, main cleaning and lining projects, and the renewal of valves, hydrants and service connections. The purpose of DSIC investments is to enhance safety, reliability, water quality, system flows and pressure, and water conservation. A DSIC also includes a rate recovery mechanism that is interim, and subject to refund, until a subsequent base rate case.

The Company's Petition includes a Foundational Filing that provides an overview of the Company's water distribution system and proposes a list of projects the Company believes are eligible for recovery through the DSIC surcharge for the period 2022 through 2025. The Company proposes to collect a maximum of \$2,173,362 in DSIC revenues annually, or no more than 5.0% of the Company's total water revenues established in the Company's most recently completed base rate case. If approved, the Company will implement the DSIC surcharge if, and when, it achieves specific levels of eligible infrastructure investment and completes and places the facilities into service as required by the DSIC regulations.

The Company has proposed that the monthly DSIC surcharge be assessed to all classes of customers based on the customer's meter size. The maximum proposed rates shown below are expected to be assessed incrementally over a two to three year period, consistent with the Company's actual DSIC program capital spending.

Any relief determined by the Board to be just and reasonable may be allocated by the Board to any class or classes of customers of the Company in such manner and in such amounts or percentages, as the Board may deem appropriate. The Board may choose to impose a greater portion of the increase on any present or future classes or classes, group or groups of customers, may exclude from any increase any of the foregoing, or may vary the amount or percentage increase applicable to any of the foregoing. The maximum proposed monthly DSIC rates are included in the Petition filed with the Board as set forth be-
