In the Matter of Public Service Electric and Gas Company's 2023/2024
Annual BGSS Commodity Charge Filing for its Residential Gas Customers
Under its Periodic Pricing Mechanism and for Changes in its Balancing Charge

BPU Docket No. GR23060331

Sherri Golden
Secretary of the Board
New Jersey Board of Public Utilities
44 South Clinton Avenue, 1st Floor
Trenton, New Jersey 08625-0350

Dear Secretary Golden:

Enclosed for filing by Public Service Electric and Gas Company ("Company"), please find an electronic copy of the Company's fully-executed Stipulation for Provisional BGSS Rates in the captioned matter.

Consistent with the Order issued by the Board in connection with In the Matter of the New Jersey Board of Public Utilities' Response to the COVID-19 Pandemic for a Temporary Waiver of Requirements for Certain Non-Essential Obligations, BPU Docket No. EO20030254, Order dated March 19, 2020, this document is being electronically filed with the Secretary of the Board and the New Jersey Division of Rate Counsel. No paper copies will follow.

Very truly yours,

A handwritten signature in blue ink that reads "Matthew Weissman". The signature is written in a cursive, flowing style.

APPEARANCES:

Matthew M. Weissman, Esq., Managing Counsel, State Regulatory, for the Petitioner, Public Service Electric and Gas Company

Maura Caroselli, Esq., Managing Attorney – Gas, **Sarah H. Steindel**, Esq., Assistant Deputy Rate Counsel and **Megan Lupo**, Esq., Assistant Deputy Rate Counsel and **Mamie W. Purnell**, Esq., Assistant Deputy Rate Counsel, for the New Jersey Division of Rate Counsel (**Brian O. Lipman**, Director)

Matko Ilic, Deputy Attorney General, for the Staff of the New Jersey Board of Public Utilities (**Matthew J. Platkin**, Attorney General of New Jersey)

On June 1, 2023, PSE&G made a filing with the New Jersey Board of Public Utilities (“Board” or “BPU”) in the above-referenced matter requesting approval to decrease the current Board-approved Basic Gas Supply Service (“BGSS”) rate through September 30, 2024, and to decrease its Balancing Charge (“2023 Petition”). Specifically, the Company requested authority to: 1) decrease the per therm BGSS Commodity Charge to Residential Service Customers (“BGSS-RSG”) of \$0.471718 [including losses and Sales and Use Tax (“SUT”)] to \$0.397497 (including losses and SUT); 2) decrease its Balancing Charge, which recovers the cost of providing storage and peaking services, from the current charge of \$0.100691 per balancing use therm (including losses and SUT) to \$0.097914 per balancing use therm (including losses and SUT); and 3) modify its Tariff for Gas Service, B.P.U.N.J. No. 16 Gas, pursuant to N.J.S.A. 48:2-21 and 48:2-21.1, as set forth in Attachment B of the Company’s filing.

In its generic Order in Docket No. GX01050304 dated January 6, 2003, the Board granted approval to increase the BGSS-RSG Commodity Charge to be effective December 1 of the year of the

annual BGSS filing, and/or February 1 of the year following the annual BGSS filing, on a self-implementing basis, with each such increase being subject to a maximum rate increase of 5% of the average rate based upon a typical 100 therms per month average (1,200 therms annual usage) residential customer's total bill. Such rate increases shall be preconditioned upon written notice by PSE&G to BPU Staff and Rate Counsel, no later than November 1 and/or January 1, of its intention to apply a December 1 or a February 1 self-implementing rate increase, respectively, and of the approximate amount of the increases based upon then-current market data. The Company is permitted to decrease its BGSS-RSG Commodity Charge at any time, upon five (5) days' notice to the Board and Rate Counsel. Pursuant to the Board's January 2003 Order, any self-implementing increases or decreases would be provisional, and subject to reconciliation during the Company's next annual BGSS filing.

As filed in the 2023 Petition, the bill impact of the proposed changes for a typical residential gas heating customer using 100 therms in a winter month and 51 average monthly therms (610 annually) is a decrease in the winter monthly bill of \$7.65 or 6.84%, and for a typical residential gas heating customer using 172 therms in a winter month and 86.7 average monthly therms (1,040 annually) is a decrease in the winter monthly bill of \$13.17 or 7.07%, based upon rates effective August 1, 2023.

Notice of public hearings regarding the Company's request to decrease the current BGSS Commodity Charge and Balancing Charge were placed in newspapers having a circulation within the Company's gas service territory, and was served on the county executives and clerks of all municipalities within PSE&G's gas service territory.¹ Public hearings were conducted virtually on September 5, 2023 at 4:30 p.m. and 5:30 p.m. Four members of the public appeared and spoke at the

¹The public hearings were held virtually due to the COVID-19 pandemic.

4:30 p.m. public hearing to express concerns about the high levels of compensation paid to the Company's officers, and to express general opposition to rate increases and disconnections. No members of the public attended the 5:30 p.m. public hearing. Written comments were not submitted.

PSE&G, Board Staff, and the New Jersey Division of Rate Counsel ("Rate Counsel") (collectively, "Parties") determined that additional time is needed to complete the review of the 2023 Petition. However, the Parties also agree that action with respect to the Company's BGSS-RSG Commodity Charge for the 2023-2024 BGSS year and Balancing Charge, on a provisional basis, is reasonable at this time.

As such, the Parties HEREBY AGREE as follows:

1. The Company's BGSS Commodity Service, tariff rate BGSS-RSG, shall provisionally be decreased to \$0.397497 per therm (including losses and SUT) through September 30, 2024. This BGSS-RSG Commodity Charge is on a provisional basis, subject to refund, with interest on any net over-recovered BGSS-RSG balance.
2. The Company's Balancing Charge shall provisionally be decreased to \$0.097914 per balancing therm (including losses and SUT), subject to refund, with interest on any net over- or under-recovered balance.
3. There will be an opportunity for full review of all the changes requested by the Company at the Office of Administrative Law, if applicable and necessary, and final approval by the Board.
4. The monthly residential customer impact of this action is as follows: A residential customer using 100 therms per month during the winter months, and 610 therms on an annual basis, would see a decrease in their monthly winter bill of \$7.65 or 6.84%, and a residential customer using 172 therms per month during the winter months, and 1,040 therms on an annual basis would see a decrease in their monthly winter bill of \$13.17 or 7.07%. These calculations are based upon rates in

effect on August 1, 2023 and assuming the customer receives BGSS service from PSE&G. The parties agree that the provisional BGSS-RSG rate and Balancing Charge will become effective as of October 1, 2023, or as soon as possible upon the issuance of a Board Order approving this Stipulation of Settlement (“Stipulation”).

5. The Company will provide updated tariff sheets within five (5) business days of the effective date of the Board’s Order in this docket reflecting the provisional decreases. The proposed tariff sheets are attached hereto as Exhibit A to this Stipulation.

6. The undersigned Parties recommend to the Board that this matter be transmitted to the Office of Administrative Law for an opportunity for full review of all issues, including the provisional rates if approved by the Board.

7. The undersigned agree that this Stipulation for a Provisional BGSS-RSG Commodity Charge and Balancing Charge contains mutually balancing and interdependent provisions and is intended to be accepted and approved in its entirety. If any particular aspect of this Stipulation is not accepted and approved by the Board, this Stipulation shall be null and void, and the Parties shall be placed in the same position that they were immediately prior to execution.

8. The undersigned further acknowledge that a Board Order approving this Stipulation will become effective upon the service of said Board Order, or upon such date after the service thereof as the Board may specify, in accordance with N.J.S.A. 48:2-40.

9. The undersigned Parties further HEREBY AGREE that this Stipulation for a Provisional BGSS-RSG Commodity Charge and Balancing Charge has been made exclusively for the purpose of this proceeding and that this Stipulation, in total or by specific item, is in no way binding upon them in any other proceeding, except to enforce the terms of this Stipulation for a Provisional BGSS-RSG Commodity Charge and Balancing Charge.

The above Commodity Charge will be established on a level annualized basis immediately prior to the winter season of each year for the succeeding twelve-month period. The estimated average Non-Gulf and Gulf Coast Cost of Gas will be adjusted for any under- or over-recovery together with applicable interest thereon which may have occurred during the operation of the Company's previously approved Commodity Charge filing. Further, the Company will be permitted a limited self-implementing increase to the Commodity Charge on December 1 and February 1 of each year. These limited self-implementing increases, if applied, are to be in accordance with a Board of Public Utilities approved methodology. Commodity Charge decreases would be permitted at any time if applicable.

The difference between actual costs and Public Service's recovery of these costs shall be determined monthly. If actual costs exceed the recovery of these costs, an underrecovery or a negative balance will result. If the recovery of these costs exceeds actual costs, an overrecovery or a positive balance will result. Interest shall be applied monthly to the average monthly cumulative deferred balance, positive or negative, from the beginning to the end of the annual period. Monthly interest on negative deferred balances (underrecoveries) shall be netted against monthly interest on positive deferred balances (overrecoveries) for the annual period. A cumulative net positive interest balance at the end of the annual period is owed to customers and shall be returned to customers in the next annual period. A cumulative net negative interest balance shall be zeroed out at the end of the annual period. The sum of the calculated monthly interests shall be added to the overrecovery balance or subtracted from the underrecovery balance at the end of the annual period. The positive interest balance shall be rolled into the beginning under- or over-recovery balance of the subsequent annual period.

Pursuant to the Board's January 6, 2003 Order approving the BGSS price structure under Docket No. GX01050304 and the BGSS Pricing Proposal appended as Attachment A to and approved in that Order, Public Service Electric and Gas Company may issue a bill credit for its BGSS-RSG customers as detailed below.

DELIVERY CHARGES:

Service Charge:

\$902.42 in each month [\$962.21 including New Jersey Sales and Use Tax (SUT)]

Distribution Charge:

Net Alternative Delivery Cost multiplied by the applicable Net Alternative Delivery Cost Factor divided by the Contracted Monthly Therms rounded to the nearest \$0.000000 per therm.

Distribution charges include Infrastructure Improvement Program Charges (IIP). Refer to Tariff Sheet 61 for details of these charges.

Maintenance Charges:

Equals the Alternative Delivery Cost multiplied by the applicable Alternative Delivery Cost Factor divided by the Contract Monthly Therms rounded to the nearest \$0.000000 per therm.

Plus any customer site-specific ongoing or continuing cost not directly related to the operation, maintenance or inspection of the customer's planned by-pass pipeline. This shall include, but not be limited to, periodic payments for rights-of-way, easements, pipeline cost differentials, permits or other such costs. These charges shall be expressed on a monthly levelized basis over the term of service.

Public Service will also take into consideration any operational or deliverability differences that would be reasonably expected between the pipeline and/or service over Public Service's distribution system in determining Delivery Charges. In no event shall the Delivery Charges be lower than an amount sufficient to generate a return on the capital investments made by Public Service and recovery of marginal and embedded costs, including depreciation, to provide service to the customer over the term of each CSG agreement.

Balancing Charge:

Applicable only if the customer is provided Public Service's Basic Gas Supply Service – Firm (BGSS-F) default service.

Societal Benefits Charge:

This charge shall recover costs associated with activities that are required to be accomplished to achieve specific public policy determinations mandated by government. In appropriate circumstances, the Board of Public Utilities may approve a discount from the Societal Benefits Charge. Refer to the Societal Benefits Charge sheet of this Tariff for the current charge and applicable exemptions.

Green Programs Recovery Charge:

This charge is designed to recover the revenue requirements associated with the PSE&G Green Programs as approved by the Board. In appropriate circumstances, the Board of Public Utilities may approve a discount from the Green Programs Recovery Charge. Refer to the Green Programs Recovery Charge sheet of this Tariff for the current charge and applicable exceptions.

Commodity Charge including New Jersey Sales and Use Tax (SUT)	<u>\$0.397497</u>

The above Commodity Charge will be established on a level annualized basis immediately prior to the winter season of each year for the succeeding twelve-month period. The estimated average Non-Gulf and Gulf Coast Cost of Gas will be adjusted for any under- or over-recovery together with applicable interest thereon which may have occurred during the operation of the Company's previously approved Commodity Charge filing. Further, the Company will be permitted a limited self-implementing increase to the Commodity Charge on December 1 and February 1 of each year. These limited self-implementing increases, if applied, are to be in accordance with a Board of Public Utilities approved methodology. Commodity Charge decreases would be permitted at any time if applicable.

The difference between actual costs and Public Service's recovery of these costs shall be determined monthly. If actual costs exceed the recovery of these costs, an underrecovery or a negative balance will result. If the recovery of these costs exceeds actual costs, an overrecovery or a positive balance will result. Interest shall be applied monthly to the average monthly cumulative deferred balance, positive or negative, from the beginning to the end of the annual period. Monthly interest on negative deferred balances (underrecoveries) shall be netted against monthly interest on positive deferred balances (overrecoveries) for the annual period. A cumulative net positive interest balance at the end of the annual period is owed to customers and shall be returned to customers in the next annual period. A cumulative net negative interest balance shall be zeroed out at the end of the annual period. The sum of the calculated monthly interests shall be added to the overrecovery balance or subtracted from the underrecovery balance at the end of the annual period. The positive interest balance shall be rolled into the beginning under- or over-recovery balance of the subsequent annual period.

Pursuant to the Board's January 6, 2003 Order approving the BGSS price structure under Docket No. GX01050304 and the BGSS Pricing Proposal appended as Attachment A to and approved in that Order, Public Service Electric and Gas Company may issue a bill credit for its BGSS-RSG customers as detailed below.
